Dear Colleagues,

welcome to the International Bonn Glaucoma Symposium on March 7th, 2015.

The symposium will focus on current aspects in glaucoma research, surgery and treatment, presented by an international panel of renown speakers and experts.

We are outmost delighted that Professor Robert Ritch from the New York Eye and Ear Infirmary will elucidate exfoliative glaucoma in his keynote lecture.

The Bonn art museum with its excellent architecture and its remarkable exhibits will set an insightful stage for a multifaceted glaucoma session.

We are looking forward to meeting you in Bonn.

With best regards
